

## Statement of acceptance

Aksel Walløe Hansen, Denmark  
Nominated as candidate for the position as Treasurer

I hereby accept the nomination as candidate for the position as Treasurer of IUGG for the period 2007 – 2011.

I am Associate professor at Niels Bohr Institute, University of Copenhagen, Denmark. I have been teaching in Geophysics, Climatology and Meteorology for more than 30 years. My research interests are within Climatology in general, but with special emphasis on Meteorology.

Currently, I am engaged in the following projects:

- 1) "Relating ice core data for reconstructions of atmospheric flow patterns"
- 2) "An observational study of the carbon cycle along the path of the Danish Galathea 3 world wide sea expedition."
- 3) "A study of the global dimming problem, a Nordic perspective"

And as a new forth coming project I can mention  
"Improving the handling of Arctic feedback processes in coupled climate models"

I have been Treasurer of IUGG since the Birmingham General Assembly in 1999. I have been re-elected once in Sapporo, 2003.

During the period 1999 to now I have served as the Danish representative to IAMAS and I have been a member of the National Committee for IUGG in the same period.

September 27, 2006

Aksel Walløe Hansen
